NIHONTO CARP

Stands out with its unparallelly smooth, slippery surface allowing to cast at least 30% further comparing to other lines. Abrasion resistance is nearly twenty times higher than in case of other copolymers. Great carp fishing line.

NIHONTO CARP FLUO

Fishing line in a very bright, fluo colour, irreplaceable during night angling and use of bait boat. Due to lowered extensibility it transfers the bait signals quicker and works better than other lines in long-distance angling.

JAWS CLASSIC JIG

The name says it all – classic yet not average jig-heads. Solid BKK hooks, a compact hook providing a great hold of the lure while not tearing it apart are main advantages of that jig-head. Other important feature is a hook size noted on the head.

NORWAY QUEST SYSTEMS

Pre-made Norway Quest rigs are a result of cooperation between the best angling guides in Norway and the Mikado product development department. Over 20 years of experience in angling by the shore of Norway allowed us to create rigs that are the most effective and customized to specific fish species. Each and every one of them was made using top-shelf lines, hooks and components, so that there is nothing left to do but to fix the rig, add the weight and experience the angling adventure of your life in Norway!

LNQ-SR01 CIRCLE AND SINGLE HOOK LING-SPOON SYSTEM

Pre-made rig made for angling with a Sea Boom. Recommended in particular for cusk and ling angling, using fish fillets and entire dead fish. It has a spoon that attracts the feeding fish and provokes them to attack.

LNQ-SR02 LING-SPOON SYSTEM LIGHT

Lighter version of the rig made for angling with a Sea Boom, using fish fillets and entire dead fish. Main line - 0.8mm thick, provides quick sinking of the rig; made for angling in average depths, with the lure elevated about 1-2 meters above the bottom.

LNQ-SR03 WOLFFISH SYSTEM FLUO

Great rig for wolffish and large cusk angling. Due to fluorescent octopus and rattlers, fish easily locate the bait - in this case, fish fillets are the best choice. Rig made for angling using heavy weights, in 50-100 m deep waters.

LNQ-SR04 BASIS-SYSTEM ULTRALIGHT CIRCLE

Versatile and effective rig for any sort of marine fish angling. Rounded hook facilitates striking. Rig made for angling using fish fillets and small fish in small and moderate depths - 5 to 50 meters.

LNQ-SR05 WOLFFISH SYSTEM

Rig made with high attention to details - its single elements, such as rattlers and red octopuses, effectively attract wolffish and provoke them to attack. Perfect for depths of 5 to 50 m. Designed for: wolffish, cusk, ling and cod.

LNQ-SR07 OCTOPUS DOUBLE-HOOK SYSTEM

Rig with two, self-striking hooks, for angling with fish fillets and small fish. It has a spinning rattle and a very natural, transparent octopus. Made for cod, pollock (saithe) and ling angling in deep and medium depths from 50 to 300 m.

LNQ-SR06 COD-HAKE CIRCLE SYSTEM

Rig made for cod and hake angling. Rounded hook creates self-striking action. Made for angling with heavy weights in deep waters, with best results slightly above the bottom.

LNQ-SR08 OCTOPUS CIRCLE SYSTEM

System with an octopus that works best when angling in significant drift in waters 30 to 500 meters deep. Spin-pad attracts more fish and triggers additional baits. Made for: cod, ling, tusk, pollock / saithe.

LNQ-SR12 ULTRALIGHT BASIC SYSTEM

Basic system for most of marine fish angling. Main line is 0.8 mm thick, with a 0.4 mm diameter snood. Versatile system that can be freely used with variety of lures. It works best in 5 to 20 m deep waters.

LNQ-SR09 DOUBLE OCTOPUS SYSTEM

System with a single hook and a fluorescent tube, perfect for hake, cod and ling angling. Rig has to be led a few meters above the bottom with a heavy weight. It requires immediate striking right after the bait occurs.

LNQ-SR10 SQUID DOUBLE HOOK SYSTEM

System with two hooks and an artificial squid. It has a spinning rattle and devilishly sharp hooks. Perfect rig for angling in waters 50 to 300 m deep, using live and dead fish. Made for: ling, cusk, halibut and large cods.

LNQ-SR11 MINI SQUID CIRCLE SYSTEM

Set made for shallow waters, will work perfectly for hake, cod, cusk and ling angling. Spinning, fluorescent beads create hydroacoustic wave. Rig is made for angling in waters 5 to 50 m deep.

LNQ-SR13 BASIC SYSTEM

Basic system that can be freely used with variety of lures. It has a 1.00 mm thick main line and 0.6 mm diameter snood. It works best in 50 to 100 m deep waters. Made for cusk, ling, pollock (saithe) and cod angling.
